

**KME Germany AG & Co KG ; Rolled Roofing
Klosterstrasse 29; D-49074 Osnabrück; Germany**

EN 14783

Fully supported metal sheet to be used for external roof coverings
and external and internal wall claddings

**7076211 TECU(R) CLASSIC STRIPS CU-DHP CW024A R240 EN 1172
I.D. MIN.: 300 MM (MILLIMETERS) 0,550 MM X 1000 MM MIN. 100**

Reaction to fire: Class A.1

External fire performance: Class B_{ROOF}

Durability: Cu-DHP CW024A

BASIS FOR CE DECLARATION

EN 14783: 2006 Annex ZA

Conformance with EU Construction Products Directive 89/106/EEC

Essential Characteristics	Result	Comment
Reaction to fire	Class A1	Commission decision 96/603/EC as amended 2000/605/EC "No contribution to fire"
External fire performance	Class B _{ROOF}	Commission decision 2000/553/EG and 2001/671/EG "External fire performance without the need for testing"
Durability	Cu-DHP or Copper-alloy	Derives from material thickness and mechanical properties

GENERAL COMMENT

- ◆ This explanation is not a warranty of characteristics in the sense of the product liability. The generally recognized rules of technology are to be considered with the processing of the product.
- ◆ The CE mark is a passport for free trade across Europe. It does not replace existing national regulations for specific application.
